# Be the change! Creating highly reliable healthcare systems.

Project Title	Be the change! Creating highly reliable healthcare systems.
Project Summary	Transform San Francisco VA Medical Center patient care systems through research, analysis, writing, and design thinking.
Country	United States

### **Project Description**

The SFVAMC High Reliability Service is transforming the SFVAMC into a high reliability organization (HRO). This is accomplished by pursuing a Just Culture, engaged leadership, high functioning clinical teams, perpetual training cycles, and by understanding and constantly improving complex, dynamic processes throughout the hospital system. Our interns will conduct literature reviews, analyze content, report on evidence-based practices, and assist in redesigning care processes to drive this work forward.
